

Science Biodiversity Final Assignment

1. **In your partners, you need to research and prepare a PowerPoint presentation on a current issue threatening biodiversity around the world.**
2. **This project is due on Wednesday, November 25, 2015**
3. **Your presentations need to be between 5-7 minutes long. The number of slides and the design is up to you.**
4. **Please include the following:**
 - a. **What the issue is**
 - b. **Why is it happening/how are humans involved**
 - c. **What impacts does it have on biodiversity**
 - d. **What can be done about it? What solutions are being implemented?**
5. **Here are some possible topics. You need to let me know your topic by tomorrow. Feel free to come up with another topic with your partner!**
 - **Global warming and pollution**
 - **Invasive species (e.g. zebra mussels, Asian longhorned beetle, PICK ONE)**
 - **Deforestation of rainforests**
 - **Mining**
 - **Oil spills**
 - **Oil pipelines**
 - **Coral reefs degradation**
 - **Overfishing**
 - **Endangered species (PICK ONE)**
 - **Illegal poaching**
